Hi **Ex. 6 - Personal Privacy**

I received your access agreement (thank you) and will forward the email I sent to the State contact momentarily. I had intended to cc you on the email but decided that I would just forward the email in the event that you would want to contact Stephen on your own.

Regarding the Iron Bac question - I have not had a chance to corner the sampling lead and ask him that specific question but I will do so tomorrow.

I would be happy to send you a copy of our analysis list tomorrow so you can send it along to your PG.

Please let me know - thanks much - Ann

Hi Ann!

I faxed that to your attn and it appeared to go through just fine. Please be advised, well-head water sampling point is located outside at wellhead and not in the house. Electrical arm to power the sampling point is at the same location as wellhead. The following is very important: Please be sure that the Electrical Arm is turned OFF when finished sampling. If not, it will cause the well pump to burn out and be replaced. It can be very easily forgotten. Please acknowledge this will not be a problem.

Water well is to the Left of our home driveway.

No physical address of our property known, however I provided directions to our location on the paperwork I just faxed. We are also located between the **Ex. 6 - Personal Privacy** home.

Will you be taking an Iron-Related-Bacteria (IRB/BART) testing of the water?

Thanks again!

Good Afternoon **Ex. 6 - Personal Privacy**

Understood - I will cc you on my correspondence with the State contact so he can contact you directly for access. I will call my office and let them know to expect your form later today. Thanks very much! Ann

Hi Ann!

Thanks for your email and form. Monday sounds fine. As you may already know we are not there but we plan to have someone be present for the sampling on our behalf. I will print out your form and send it back today, I'm running out right now but always available by phone **Ex. 6 - Personal Privacy** We would welcome PADEP to be present at that time and take split samples. However, we would prefer Cabot

is not at this sampling event nor there at the time of sampling.

Thank you much. I will be faxing you that document this afternoon. Take care. Ex. 6 - Personal Privacy

Hello Ex. 6 - Personal Privacy

We would like to set up sampling for your well on Monday January 30th at 0830, if that would be acceptable. We can also schedule your sampling for further on in February of that would be better. I am attaching an access form for our sampling that would need to be filled out and signed prior to our sampling event. You can scan the form and email it to me or I can have someone available to receive the fax in my office, they would scan it and send it to me. The fax number would be 215-814-3254 and you would send it attn: to me.

We are also checking with the home owners regarding home well 'split' sampling with Cabot and (or) DEP. If you are interested in allowing this sampling, we would send your contact information over the them and they would be responsible for requesting access from you.

I will follow up this with a call this afternoon - but you are welcome to call me at the cell phone below (or email me) at any time. Thanks much. Ann

Suzzanne,

Anne DiDonato, USEPA On-Scene Coordinator, will be calling you on Wednesday to schedule sampling. We would like to know if you would allow PADEP and Cabot to take additional samples during the time EPA is sampling. Please let her know.

Very respectfully,

David Polish
